

BACKLOG BUDDY ? STUDY MATERIAL

Surveying ? Syllabus & Reference Books

Subject Code: CE301 Semester: 3

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Chain and Compass Surveying

- Definition, key concepts and significance of Chain and Compass Surveying
- Important diagrams / derivations / algorithms for Chain and Compass Surveying
- Solved examples and previous-year questions on Chain and Compass Surveying

Unit 2: Levelling

- Definition, key concepts and significance of Levelling
- Important diagrams / derivations / algorithms for Levelling
- Solved examples and previous-year questions on Levelling

Unit 3: Theodolite Traversing

- Definition, key concepts and significance of Theodolite Traversing
- Important diagrams / derivations / algorithms for Theodolite Traversing
- Solved examples and previous-year questions on Theodolite Traversing

Unit 4: Contouring

- Definition, key concepts and significance of Contouring
- Important diagrams / derivations / algorithms for Contouring
- Solved examples and previous-year questions on Contouring

Unit 5: Total Station and GPS Surveying

- Definition, key concepts and significance of Total Station and GPS Surveying
- Important diagrams / derivations / algorithms for Total Station and GPS Surveying
- Solved examples and previous-year questions on Total Station and GPS Surveying

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.
