REGULAR EXAMINATION ? 2024

Transportation Engineering ? Regular Examination, 2024

Subject Code: CE502 Semester: 5 Regulation: R23

Time: 3 Hours Max. Marks: 70

.....
Note: This is a demo question paper generated for Backlog Buddy.

Answer all questions. Assume suitable data wherever necessary.
.....

SECTION A (Unit 1: Highway Alignment and Surveys)

1. Define Highway Alignment and Surveys. Explain its significance in Transportation Engineering with a suitable example. [12 Marks]
2. Define Highway Alignment and Surveys. Explain its significance in Transportation Engineering with a suitable example. [8 Marks]
3. Write short notes on Highway Alignment and Surveys. [12 Marks]

SECTION B (Unit 2: Pavement Design)

4. Write short notes on Pavement Design. [12 Marks]
5. How is Pavement Design implemented? Give an algorithm / procedure and explain. [8 Marks]
6. Discuss the engineering applications of Pavement Design. [12 Marks]

SECTION C (Unit 3: Traffic Engineering)

7. Discuss the engineering applications of Traffic Engineering. [12 Marks]
8. Write short notes on Traffic Engineering. [12 Marks]
9. Explain Traffic Engineering with a neat diagram/sketch and a suitable example. [8 Marks]

SECTION D (Unit 4: Railway Engineering)

10. Define Railway Engineering. Explain its significance in Transportation Engineering with a suitable example. [12 Marks]
11. List the advantages and limitations of Railway Engineering. Explain any two in detail. [12 Marks]
12. How is Railway Engineering implemented? Give an algorithm / procedure and explain. [12 Marks]

SECTION E (Unit 5: Airport Engineering)

13. How is Airport Engineering implemented? Give an algorithm / procedure and explain. [12 Marks]
14. Describe the working principle of Airport Engineering with necessary equations. [12 Marks]
15. Explain Airport Engineering with a neat diagram/sketch and a suitable example. [8

Marks]
