

BACKLOG BUDDY ? STUDY MATERIAL

Transportation Engineering ? Syllabus & Reference Books

Subject Code: CE502 Semester: 5

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Highway Alignment and Surveys

- Definition, key concepts and significance of Highway Alignment and Surveys
- Important diagrams / derivations / algorithms for Highway Alignment and Surveys
- Solved examples and previous-year questions on Highway Alignment and Surveys

Unit 2: Pavement Design

- Definition, key concepts and significance of Pavement Design
- Important diagrams / derivations / algorithms for Pavement Design
- Solved examples and previous-year questions on Pavement Design

Unit 3: Traffic Engineering

- Definition, key concepts and significance of Traffic Engineering
- Important diagrams / derivations / algorithms for Traffic Engineering
- Solved examples and previous-year questions on Traffic Engineering

Unit 4: Railway Engineering

- Definition, key concepts and significance of Railway Engineering
- Important diagrams / derivations / algorithms for Railway Engineering
- Solved examples and previous-year questions on Railway Engineering

Unit 5: Airport Engineering

- Definition, key concepts and significance of Airport Engineering
- Important diagrams / derivations / algorithms for Airport Engineering
- Solved examples and previous-year questions on Airport Engineering

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
