

BACKLOG BUDDY ? STUDY MATERIAL

Object Oriented Programming with Java ? Syllabus & Reference Books

Subject Code: CS303 Semester: 3

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Classes and Objects

- Definition, key concepts and significance of Classes and Objects
- Important diagrams / derivations / algorithms for Classes and Objects
- Solved examples and previous-year questions on Classes and Objects

Unit 2: Inheritance

- Definition, key concepts and significance of Inheritance
- Important diagrams / derivations / algorithms for Inheritance
- Solved examples and previous-year questions on Inheritance

Unit 3: Polymorphism and Abstraction

- Definition, key concepts and significance of Polymorphism and Abstraction
- Important diagrams / derivations / algorithms for Polymorphism and Abstraction
- Solved examples and previous-year questions on Polymorphism and Abstraction

Unit 4: Packages and Interfaces

- Definition, key concepts and significance of Packages and Interfaces
- Important diagrams / derivations / algorithms for Packages and Interfaces
- Solved examples and previous-year questions on Packages and Interfaces

Unit 5: Exception Handling and Multithreading

- Definition, key concepts and significance of Exception Handling and Multithreading
- Important diagrams / derivations / algorithms for Exception Handling and

Multithreading

- Solved examples and previous-year questions on Exception Handling and Multithreading

Exam Tips:

* Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.

* Solve at least 3 previous year papers under timed conditions before the exam.

* Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).

* Revise definitions, diagrams and standard derivations ? they earn easy marks.

* Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
