

BACKLOG BUDDY ? STUDY MATERIAL

Database Management Systems ? Unit-wise Lecture Notes

Subject Code: CS401 Semester: 4

.....
Condensed notes covering all five units: ER Model and Relational Model, SQL and Relational Algebra, Normalization, Transactions and Concurrency Control, File Organization and Indexing.

Unit 1: ER Model and Relational Model

- Definition, key concepts and significance of ER Model and Relational Model
- Important diagrams / derivations / algorithms for ER Model and Relational Model
- Solved examples and previous-year questions on ER Model and Relational Model

Unit 2: SQL and Relational Algebra

- Definition, key concepts and significance of SQL and Relational Algebra
- Important diagrams / derivations / algorithms for SQL and Relational Algebra
- Solved examples and previous-year questions on SQL and Relational Algebra

Unit 3: Normalization

- Definition, key concepts and significance of Normalization
- Important diagrams / derivations / algorithms for Normalization
- Solved examples and previous-year questions on Normalization

Unit 4: Transactions and Concurrency Control

- Definition, key concepts and significance of Transactions and Concurrency Control
- Important diagrams / derivations / algorithms for Transactions and Concurrency Control
- Solved examples and previous-year questions on Transactions and Concurrency Control

Unit 5: File Organization and Indexing

- Definition, key concepts and significance of File Organization and Indexing
- Important diagrams / derivations / algorithms for File Organization and Indexing
- Solved examples and previous-year questions on File Organization and Indexing

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory

problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
