

# **BACKLOG BUDDY ? STUDY MATERIAL**

Operating Systems ? Quick Revision & Formula Sheet

Subject Code: CS402 Semester: 4

.....  
Last-day revision guide with key definitions, formulas and diagrams checklist.

## **Unit 1: Process Management**

- Definition, key concepts and significance of Process Management
- Important diagrams / derivations / algorithms for Process Management
- Solved examples and previous-year questions on Process Management

## **Unit 2: CPU Scheduling**

- Definition, key concepts and significance of CPU Scheduling
- Important diagrams / derivations / algorithms for CPU Scheduling
- Solved examples and previous-year questions on CPU Scheduling

## **Unit 3: Memory Management**

- Definition, key concepts and significance of Memory Management
- Important diagrams / derivations / algorithms for Memory Management
- Solved examples and previous-year questions on Memory Management

## **Unit 4: File Systems**

- Definition, key concepts and significance of File Systems
- Important diagrams / derivations / algorithms for File Systems
- Solved examples and previous-year questions on File Systems

## **Unit 5: Deadlocks and Synchronization**

- Definition, key concepts and significance of Deadlocks and Synchronization
- Important diagrams / derivations / algorithms for Deadlocks and Synchronization
- Solved examples and previous-year questions on Deadlocks and Synchronization

Exam Tips:

- \* Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- \* Solve at least 3 previous year papers under timed conditions before the exam.
- \* Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- \* Revise definitions, diagrams and standard derivations ? they earn easy marks.
- \* Practise numerical problems from every unit; papers usually include 2?3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

**Appearance counts are based on available papers and are not exam predictions.**
