

BACKLOG BUDDY ? STUDY MATERIAL

Electronic Devices and Circuits ? Unit-wise Lecture Notes

Subject Code: EC303 Semester: 3

.....
Condensed notes covering all five units: Semiconductor Physics, PN Junction Diodes, BJT and JFET, MOSFETs and Power Devices, Optoelectronic Devices.

Unit 1: Semiconductor Physics

- Definition, key concepts and significance of Semiconductor Physics
- Important diagrams / derivations / algorithms for Semiconductor Physics
- Solved examples and previous-year questions on Semiconductor Physics

Unit 2: PN Junction Diodes

- Definition, key concepts and significance of PN Junction Diodes
- Important diagrams / derivations / algorithms for PN Junction Diodes
- Solved examples and previous-year questions on PN Junction Diodes

Unit 3: BJT and JFET

- Definition, key concepts and significance of BJT and JFET
- Important diagrams / derivations / algorithms for BJT and JFET
- Solved examples and previous-year questions on BJT and JFET

Unit 4: MOSFETs and Power Devices

- Definition, key concepts and significance of MOSFETs and Power Devices
- Important diagrams / derivations / algorithms for MOSFETs and Power Devices
- Solved examples and previous-year questions on MOSFETs and Power Devices

Unit 5: Optoelectronic Devices

- Definition, key concepts and significance of Optoelectronic Devices
- Important diagrams / derivations / algorithms for Optoelectronic Devices
- Solved examples and previous-year questions on Optoelectronic Devices

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
