

BACKLOG BUDDY ? STUDY MATERIAL

Analog and Digital Communications ? Syllabus & Reference Books

Subject Code: EC401 Semester: 4

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Amplitude Modulation

- Definition, key concepts and significance of Amplitude Modulation
- Important diagrams / derivations / algorithms for Amplitude Modulation
- Solved examples and previous-year questions on Amplitude Modulation

Unit 2: Angle Modulation

- Definition, key concepts and significance of Angle Modulation
- Important diagrams / derivations / algorithms for Angle Modulation
- Solved examples and previous-year questions on Angle Modulation

Unit 3: Digital Modulation Techniques

- Definition, key concepts and significance of Digital Modulation Techniques
- Important diagrams / derivations / algorithms for Digital Modulation Techniques
- Solved examples and previous-year questions on Digital Modulation Techniques

Unit 4: Information Theory and Coding

- Definition, key concepts and significance of Information Theory and Coding
- Important diagrams / derivations / algorithms for Information Theory and Coding
- Solved examples and previous-year questions on Information Theory and Coding

Unit 5: Multiplexing and Multiple Access

- Definition, key concepts and significance of Multiplexing and Multiple Access
- Important diagrams / derivations / algorithms for Multiplexing and Multiple Access
- Solved examples and previous-year questions on Multiplexing and Multiple Access

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2?3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
