

BACKLOG BUDDY ? STUDY MATERIAL

Electromagnetic Theory and Transmission Lines ? Syllabus & Reference Books

Subject Code: EC404 Semester: 4

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Electrostatics

- Definition, key concepts and significance of Electrostatics
- Important diagrams / derivations / algorithms for Electrostatics
- Solved examples and previous-year questions on Electrostatics

Unit 2: Magnetostatics

- Definition, key concepts and significance of Magnetostatics
- Important diagrams / derivations / algorithms for Magnetostatics
- Solved examples and previous-year questions on Magnetostatics

Unit 3: Maxwell's Equations

- Definition, key concepts and significance of Maxwell's Equations
- Important diagrams / derivations / algorithms for Maxwell's Equations
- Solved examples and previous-year questions on Maxwell's Equations

Unit 4: Electromagnetic Wave Propagation

- Definition, key concepts and significance of Electromagnetic Wave Propagation
- Important diagrams / derivations / algorithms for Electromagnetic Wave Propagation
- Solved examples and previous-year questions on Electromagnetic Wave Propagation

Unit 5: Transmission Lines

- Definition, key concepts and significance of Transmission Lines
- Important diagrams / derivations / algorithms for Transmission Lines
- Solved examples and previous-year questions on Transmission Lines

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
