REGULAR EXAMINATION ? 2024

Embedded Systems ? Regular Examination, 2024

Subject Code: EC601 Semester: 6 Regulation: R23

Time: 3 Hours Max. Marks: 70

.....
Note: This is a demo question paper generated for Backlog Buddy.

Answer all questions. Assume suitable data wherever necessary.
.....

SECTION A (Unit 1: Embedded Processors and ARM)

1. Solve a problem related to Embedded Processors and ARM. Show all the steps clearly. [12 Marks]
2. Explain Embedded Processors and ARM with a neat diagram/sketch and a suitable example. [12 Marks]
3. Discuss the engineering applications of Embedded Processors and ARM. [12 Marks]

SECTION B (Unit 2: Embedded C Programming)

4. Write short notes on Embedded C Programming. [12 Marks]
5. Explain Embedded C Programming with a neat diagram/sketch and a suitable example. [12 Marks]
6. Discuss the engineering applications of Embedded C Programming. [12 Marks]

SECTION C (Unit 3: RTOS Concepts)

7. Write short notes on RTOS Concepts. [12 Marks]
8. Compare and contrast the key concepts involved in RTOS Concepts. [8 Marks]
9. Derive the expression related to RTOS Concepts and explain each term. [12 Marks]

SECTION D (Unit 4: Peripheral Interfacing)

10. Compare and contrast the key concepts involved in Peripheral Interfacing. [12 Marks]
11. Derive the expression related to Peripheral Interfacing and explain each term. [12 Marks]
12. Define Peripheral Interfacing. Explain its significance in Embedded Systems with a suitable example. [12 Marks]

SECTION E (Unit 5: Embedded System Design)

13. List the advantages and limitations of Embedded System Design. Explain any two in detail. [12 Marks]
14. List the advantages and limitations of Embedded System Design. Explain any two in detail. [12 Marks]
15. Derive the expression related to Embedded System Design and explain each term. [8 Marks]
