

BACKLOG BUDDY ? STUDY MATERIAL

Antennas and Wave Propagation ? Syllabus & Reference Books

Subject Code: EC602 Semester: 6

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Antenna Fundamentals

- Definition, key concepts and significance of Antenna Fundamentals
- Important diagrams / derivations / algorithms for Antenna Fundamentals
- Solved examples and previous-year questions on Antenna Fundamentals

Unit 2: Wire and Aperture Antennas

- Definition, key concepts and significance of Wire and Aperture Antennas
- Important diagrams / derivations / algorithms for Wire and Aperture Antennas
- Solved examples and previous-year questions on Wire and Aperture Antennas

Unit 3: Antenna Arrays

- Definition, key concepts and significance of Antenna Arrays
- Important diagrams / derivations / algorithms for Antenna Arrays
- Solved examples and previous-year questions on Antenna Arrays

Unit 4: Radio Wave Propagation

- Definition, key concepts and significance of Radio Wave Propagation
- Important diagrams / derivations / algorithms for Radio Wave Propagation
- Solved examples and previous-year questions on Radio Wave Propagation

Unit 5: Microwave Communication

- Definition, key concepts and significance of Microwave Communication
- Important diagrams / derivations / algorithms for Microwave Communication
- Solved examples and previous-year questions on Microwave Communication

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
