REGULAR EXAMINATION ? 2024

Manufacturing Technology ? Regular Examination, 2024

Subject Code: ME403 Semester: 4 Regulation: R18

Time: 3 Hours Max. Marks: 70

.....
Note: This is a demo question paper generated for Backlog Buddy.

Answer all questions. Assume suitable data wherever necessary.
.....

SECTION A (Unit 1: Casting Processes)

1. How is Casting Processes implemented? Give an algorithm / procedure and explain. [12 Marks]
2. How is Casting Processes implemented? Give an algorithm / procedure and explain. [8 Marks]
3. Derive the expression related to Casting Processes and explain each term. [12 Marks]

SECTION B (Unit 2: Welding Processes)

4. Define Welding Processes. Explain its significance in Manufacturing Technology with a suitable example. [12 Marks]
5. Compare and contrast the key concepts involved in Welding Processes. [12 Marks]
6. Solve a problem related to Welding Processes. Show all the steps clearly. [8 Marks]

SECTION C (Unit 3: Metal Forming Processes)

7. How is Metal Forming Processes implemented? Give an algorithm / procedure and explain. [12 Marks]
8. Compare and contrast the key concepts involved in Metal Forming Processes. [12 Marks]
9. Discuss the engineering applications of Metal Forming Processes. [12 Marks]

SECTION D (Unit 4: Machining Processes)

10. Describe the working principle of Machining Processes with necessary equations. [8 Marks]
11. Discuss the engineering applications of Machining Processes. [12 Marks]
12. Describe the working principle of Machining Processes with necessary equations. [12 Marks]

SECTION E (Unit 5: CNC Machines and Automation)

13. How is CNC Machines and Automation implemented? Give an algorithm / procedure and explain. [12 Marks]
14. Explain CNC Machines and Automation with a neat diagram/sketch and a suitable example. [12 Marks]

15. Describe the working principle of CNC Machines and Automation with necessary equations. [12 Marks]
