

BACKLOG BUDDY ? STUDY MATERIAL

Automobile Engineering ? Syllabus & Reference Books

Subject Code: ME601 Semester: 6

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Engine Components and Systems

- Definition, key concepts and significance of Engine Components and Systems
- Important diagrams / derivations / algorithms for Engine Components and Systems
- Solved examples and previous-year questions on Engine Components and Systems

Unit 2: Fuel Supply and Ignition

- Definition, key concepts and significance of Fuel Supply and Ignition
- Important diagrams / derivations / algorithms for Fuel Supply and Ignition
- Solved examples and previous-year questions on Fuel Supply and Ignition

Unit 3: Transmission Systems

- Definition, key concepts and significance of Transmission Systems
- Important diagrams / derivations / algorithms for Transmission Systems
- Solved examples and previous-year questions on Transmission Systems

Unit 4: Steering, Suspension and Brakes

- Definition, key concepts and significance of Steering, Suspension and Brakes
- Important diagrams / derivations / algorithms for Steering, Suspension and Brakes
- Solved examples and previous-year questions on Steering, Suspension and Brakes

Unit 5: Vehicle Emission Control

- Definition, key concepts and significance of Vehicle Emission Control
- Important diagrams / derivations / algorithms for Vehicle Emission Control
- Solved examples and previous-year questions on Vehicle Emission Control

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.
