

BACKLOG BUDDY ? STUDY MATERIAL

Engineering Physics ? Syllabus & Reference Books

Subject Code: PH102 Semester: 1

.....
Unit-wise syllabus, recommended reference books and question paper pattern.

Unit 1: Interference of Light

- Definition, key concepts and significance of Interference of Light
- Important diagrams / derivations / algorithms for Interference of Light
- Solved examples and previous-year questions on Interference of Light

Unit 2: Polarization

- Definition, key concepts and significance of Polarization
- Important diagrams / derivations / algorithms for Polarization
- Solved examples and previous-year questions on Polarization

Unit 3: Quantum Mechanics

- Definition, key concepts and significance of Quantum Mechanics
- Important diagrams / derivations / algorithms for Quantum Mechanics
- Solved examples and previous-year questions on Quantum Mechanics

Unit 4: Lasers

- Definition, key concepts and significance of Lasers
- Important diagrams / derivations / algorithms for Lasers
- Solved examples and previous-year questions on Lasers

Unit 5: Optical Fibers

- Definition, key concepts and significance of Optical Fibers
- Important diagrams / derivations / algorithms for Optical Fibers
- Solved examples and previous-year questions on Optical Fibers

Exam Tips:

- * Start with the latest syllabus and exam pattern ? focus on units with the highest weightage first.
- * Solve at least 3 previous year papers under timed conditions before the exam.
- * Focus on frequently repeated topics ? they are strong preparation priorities based on available papers (not guarantees).
- * Revise definitions, diagrams and standard derivations ? they earn easy marks.
- * Practise numerical problems from every unit; papers usually include 2-3 compulsory problems.

Disclaimer: Sample study material for preparation support only.

Appearance counts are based on available papers and are not exam predictions.
