

Sample End Semester Question Paper - 2025

Subject: Surveying | Code: CE203 | Semester: 2

Branch: Civil | Regulation: R20 (sample) | Time: 3 Hours | Max Marks:

This is a SAMPLE question paper generated for Backlog Buddy (demo/testing data).
It is not an official university paper and is provided to demonstrate the platform.

PART A - Short questions (10 x 1 = 10 Marks)

1. What is a theodolite?
2. Define a traverse.
3. What is a contour?
4. State one use of a clinometer.
5. Define closing error.
6. What is chain surveying?
7. Define bearing.
8. What is local attraction?
9. Define reduced level.
10. Name two methods of levelling.

PART B - Long questions (6 x 13 = 78 Marks)

1. Explain chain surveying: principles, errors and corrections.
2. Explain compass surveying: bearings and local attraction with examples.
3. Explain direct and indirect levelling. Compute reduced levels by the HI method.
4. Explain the theodolite: definitions and measurement of horizontal angles.
5. Explain traversing. Compute latitudes and departures and adjust the error.
6. Explain contouring: characteristics, methods and applications.
