

Sample End Semester Question Paper - 2026

Subject: Programming in C | Code: CS101 | Semester: 1

Branch: CSE | Regulation: R20 (sample) | Time: 3 Hours | Max Marks:

This is a SAMPLE question paper generated for Backlog Buddy (demo/testing data).
It is not an official university paper and is provided to demonstrate the platform.

PART A - Short questions (10 x 1 = 10 Marks)

1. What is a structure?
2. Name one string library function.
3. What is recursion?
4. What is a header file?
5. Name the parts of a C program.
6. What is a compiler?
7. State two integer data types in C.
8. What does the sizeof operator do?
9. What is a pointer?
10. State the difference between call by value and call by reference.

PART B - Long questions (10 x 8 = 80 Marks)

1. Explain command line arguments in C with a program.
2. Explain the structure of a C program with a complete example.
3. Explain decision making and loops in C with example programs.
4. Explain functions in C: prototypes, call by value and recursion with programs.
5. Explain pointers: declaration, arithmetic and pointer to array with programs.
6. Explain strings in C using character arrays and string functions.
7. Explain structures and unions with example programs.
8. Explain one and two dimensional arrays with programs (search, sort).
9. Explain file handling in C with a complete program.
10. Write recursive programs for factorial and Fibonacci with a complexity discussion.
