

Backlog Buddy

Demonstration question paper generated from available previous papers - for practice only

B.Tech. I Semester Examination, 2024

Regulation: R20 | University: JNTUK

Computer Networks (21CS52)

Time: 3 hours Max. Marks: 60

Answer one question from each unit. All questions carry equal marks.

UNIT - 1 [Introduction, Switching & Physical Layer]

- a) Compare the OSI and TCP/IP reference models.
- b) Explain the different switching techniques with diagrams.

UNIT - 2 [Data Link Layer & MAC Protocols]

- a) Explain the working of CSMA/CD protocol.
- b) Explain error detection and correction using CRC and Hamming code.

UNIT - 3 [Network Layer, Addressing & Routing]

- a) Perform subnetting for the given IP address requirements.
- b) Explain distance vector and link state routing algorithms.

UNIT - 4 [Transport Layer & Congestion Control]

- a) Compare TCP and UDP with their header formats.
- b) Explain TCP congestion control mechanisms.

UNIT - 5 [Application Layer Protocols & Security]

- a) Explain the DNS hierarchy and name resolution process.
- b) Explain the DNS hierarchy and name resolution process.

Backlog Buddy - previous question paper library. This paper is reconstructed from previous examination papers available on the platform and is intended for practice only.
